## Steady, Reliable income on your own terms

One of the fastest growing industries in America today is the home-based business. Thousands of individuals just like You are able to make a great living, set their own schedule and work from home. Statistics have shown that the average income of someone who works from home is nearly **twice** that of the average American worker. Wouldn't you like to join them?

We realize that you have probably heard of untold riches before. "Earn thousands of dollars..." by what, stuffing envelopes for fractions of a penny each for twenty-three hours every day? ..... or for starting your own MLM company, thus spending thousands of dollars for inventory and alienating every friend and relative that you recruit? These types of offers are intriguing, but with rare exceptions are very disappointing. Just ask any of us whose garage is filled with soap or miracle dieting products. So what is it and what makes this business different?

We are introducing you to the Judgment Recovery Business. This business requires no recruiting and no inventory. You work your own hours and spend as little or as much time as you want. The rewards are real and we will show you how they can be yours.

Here are the simple facts: There is **20 BILLION DOLLARS** every year that are awarded by the courts in civil cases. These judgments vary from a few hundred dollars to hundreds of thousands of dollars. Unfortunately for the successful judgment winner, the court cannot force the losing party to pay. **EIGHTY PERCENT** of all court awarded judgments go uncollected!

However, there are powerful legal and investigative tools available for recovering judgment money. Enter the world of the Judgment Recovery Specialist.

**THIS IS THE OPPORTUNITY YOU HAVE BEEN WAITING FOR**, a career in the field of Judicial Judgment Recovery. No other legitimate business opportunity can offer you the financial rewards and satisfaction of your own judgment recovery business.
